SPRING IS IN THE AIR!

PHOTO/THINKSTOCK

With warm temperatures right around the corner, Police Chief Jeremy Abrams urges residents to use caution while driving. Give ample room to the other users of the roadways and beware children at play.

The Recreation Department's spring schedule will soon be in full swing, highlighted by tennis lessons taught by Bill Bess of Tennis Dynamics. Residents should mark their calendars appropriately for this year's Day in the Park, scheduled for Saturday, June 18, and be

mindful of summer camp registration, which takes place Wednesday, May 4, and Friday, May 6, at Memorial School. Camp activities will include bowling at Montvale Lanes, swimming at the Montvale Swim Club, guest entertainers and arts and crafts.

Seniors are encouraged to check out the goings-on at the Montvale Senior Club, which will include a day trip to Botanical Gardens planned for April.

MAYOR'S MESSAGE MARCH

With winter almost behind us and all the snow melting and temperatures changing, expect potholes to begin showing up, especially after rain. When water seeps into cracks on the road's surface and is combined with the vibration of traffic it causes the asphalt to fail. The most common cause is the freeze/thaw cycle. The ice/snow melts during the day, filling cracks with water. At night the water freezes and expands, popping out the asphalt. The PVDPW is working diligently to fill as many potholes as they can. Please do your part and report potholes you see on your roads.

As part of our communication strategy, we will have a Town Hall meeting on March 31 at 7 p.m. at our Borough Hall to present updates to the public on key projects in town, detail the state of the Borough both financially and operationally and address all questions and issues. We will have our professionals on hand to address specific issues such as road improvements, taxes, our master plan and upcoming activities. Related to the communication strategy, we will update our website to be more intuitive and functional with a much easier accessibility to timely information.

I have been spending much of my time dealing with our corporate office buildings and their future in our town. Proactively, we introduced a new ordinance to create an Economic Growth and Retention Commission that will be actively seeking new tenants globally and working closely with current corporate tenants to ensure closed loop communication.

Why all the obvious focus on corporate tenants? The mega suburban office building of the 80s is not viable anymore. Companies are

Mike Ghassali
Mayor

restructuring their workplaces, reengineering and shrinking their real estate footprints. They no longer require the large space typically found in suburban office campuses. Landlords who were once capable of supporting a single tenant building now find themselves converting these buildings to multi-tenant use. Our challenge: increased real estate vacancy in Montvale and aggressive developers seeking to build high-density housing. These are the facts we are dealing with and we have to face the reality our landscape is changing. My promise is that the public will be informed and informed early enough to have a say in how our town will look in the next 5-10 years.

We also started a Mayor's Wellness Program. The credit goes to Councilwoman Leah LeMonica for introducing this program, and I am gladly supporting it. Once the weather warms up, we will set up a day in the week to walk around town with anyone who wants to walk with us. This gives us a chance to talk one on one with the residents and get to know everyone, all while walking and doing a good low-impact exercise. More to come on this. I look forward to this program.

These first three months in office have been very exciting and interesting. Meeting many residents and addressing their issues seems to increase my passion and feeling that I am making a difference. I sincerely appreciate all the well wishes and support; many residents offered to volunteer to work for the town and I will be reaching out to them in the next few weeks. Feel free to call me anytime at 201-927-8000, stop by the office on Tuesdays from 5 to 7 p.m. or, if you prefer during the day, call me and we can schedule a time.

MONTVALE POLICE DEPARTMENT

Hello Montvale:

As we head into April, the joggers, bicyclists and walkers will be out in full force again on our streets and sidewalks. Use caution while driving. Give ample room to the other users of the roadways. Beware of children at play as the weather warms.

Also as a reminder, home and business burglar alarms must be registered with the police department. You can download a registration form on the borough website, www.montvale.org, or pick one up at the police station. You can also download Vacant Home Registration and Firearms Permit forms and connect to the Orange and Rockland Street Light repair via a link on

the website.

We have had more thefts from autos of unlocked cars in driveways. LOCK your cars when not in them and do not leave the starter fobs in the car.

Credit card fraud victims have been popping up all over the area. It is impossible to prevent all credit card information theft, but there are steps you can take to minimize the risk or limit the damage.

- Delete cookies and auto-fill data when you visit web pages.
- Only use your card on trusted websites.
- Use reliable, updated anti-virus and anti-spam software. Do not use websites that your software tries to reject.
- Regularly monitor your credit card statement for any unauthorized payments. Many unauthorized payments may be for small amounts of money – it may be an attempt to see if a payment gets through or the thief may hope you don't notice. Some payments may be to a service that the thieves hope you will be uncomfortable confronting, like a massage parlor or pornography website. Other payments may go to what appears to be a religious or medical charity the thieves hope you will not want to contest. In every case of an unauthorized payment contact your bank and credit card company to stop the payment.

Stay safe,
Chief Jeremy Abrams

SEWING FOR FUN

Sewing is a fun-filled and exciting art that helps foster the creativity of young girls while teaching them to follow instructions and concentrate on a task. Sewing reinforces hand eye coordination, and develops fine motor and problem solving skills. Best of all, by designing and sewing their own creations, the girls will increase their confidence and self-esteem. Using the latest computerized sewing machines with three speed controls to accommodate the age and skill level of your future designers, the girls will discover the fun of sewing. The program culminates with a fashion show, where the girls can model their creations for parents and friends. The program will be held on Tuesdays beginning March 22. All classes are held at the Recreation Center. Fee for the eight-week class is \$80 for residents and \$100 for non-residents.
