CENSUS 2020

In mid-March, homes across the country will begin receiving invitations to complete the 2020 Census.

Once the invitation arrives, you should respond for your home in one of three ways: <u>online</u>, by phone, or by mail. Visit the census website here for further information on jobs, news, how to respond and why your answers matter!

The Mayor's Corner

We have been lucky with this great winter weather this year and that means our roads are not getting the usual harsh winter beating and staying in great shape. In looking at the weather outlook it seems to be a similar pattern for the next few weeks, and we all like that. It has been a quite month but we are gearing up for spring and summer activities. One of the projects I was looking forward to is the cleaning up of Huff Pond and the area around it so it's ready for fishing and enjoyment during the spring. However, (with a sigh) the DEP permit process is long and intense, and while we were planning on having the drudging of the pond, and fixing the inlets so the water has constant movement this spring, the DEP permit will not be ready until around June, which means work will not start until July and completion by September 2020. There will be safety fencing and traffic controls during summer camp, but it will be a work site during the drudging. The pond will look great and the algae that

we have been seeing the last few

years collecting on the surface, will not be there since the new inlets will allow the water to flow from the brook, circulate through the pond and then exit back Mayor to the brook through the newly installed outlet.

Mayor Mike Ghassali

I want to thank our department heads and staff, our Council and especially our Finance Committee Chairman Tim Lane for the diligent work on the 2020 budget. We should have the computation of the municipal rate completed in March and presented in April.

Enjoy this great weather, and as always, please continue to report potholes and burned out street lights. I am always available to discuss any issue and respond to your questions directly. You may reach me at mghassali@ montvaleboro.org or call me at 201-248-0398.

Montvale Police Department

On the evening of January 1, the Borough had its yearly town reorganization meeting in the Council Chambers. Part of the meeting includes the swearing in of Officers for the Fire Department, and other individuals who volunteer for various positions within the Borough. The Mayor and Council thanked all of the volunteers, and Borough employees for their service as well. What amazed and humbled me was the sheer amount of volunteers, and the time they devote to make Montvale such a great place to live and work. I thought this would be a perfect venue to thank them, and let you know what they do here.

I'm sure I will miss a few, but I will list some of them. The Planning Board, the Environmental Commission, Board of Health, Recreation, Historic Commission, and TV Access-all made possible by volunteers. Of course, the Montvale Fire Department, and

Tri-Boro Ambulance Corp are staffed completely by volunteers. Many of them have been with their respective organizations for more than 30 years. These are people that make themselves available 24 hours a day to respond to emergencies. I can tell you that the Police Department would be lost without them. They are an incredible group of people, and I encourage anyone interested, to get involved. New members at both of these fine organizations are urgently needed.

For more information on joining Tri-Boro Ambulance, please email them at membership@tbvac.org. If you are interested in joining the ranks of the Montvale Fire Department, please email Fire Chief Geoffrey Gibbons at ggibbons@montvaleboro.org.

New Website & TV Programs!

Newton's first law of motion says that a body in motion stays in motion. Things have been in motion with the MonTVale Public Access station and the Montvale website.

Montvale's website has a new look! GovSites, the Borough webmaster, performed a "design refresh" on the website. The content from the previous website was moved to the new one, and that, along with the new design, has made www.Montvale.org much more 'user-friendly'. Residents will be able to easily access the information that they are looking for. The new website is constantly evolving and will be updated based on usage and suggestions. In fact, there is a "feedback option" on the homepage of the website that you can click and submit suggestions to improve the website.

Montvale in Motion and My Montvale are the Borough based interview programs on Montvale Public Access TV under the direction of Jim Signorini Media Consultants, LLC. These programs can be viewed on Fios channel 35, Optimum channel 77 and via streaming on the Borough Website: www.montvale.org.

Thank you to Kara Mayer Robinson and Robert Hassimi for their fine work in bringing us the stories of Montvale residents, and official information from the Borough. Those interviews can still be seen on the new Montvale website and are listed by date.

Welcome to resident Tony Salerno who will be conducting interviews for My Montvale - Borough information for residents and businesses, and Montvale in Motion- focusing on the stories of residents and businesses here in town. Tony conducted interviews in February with Judy Currier, Montvale resident and cellist for the Metropolitan Opera Orchestra; and Christina Gouraige, Supervisor of Special Education Services for the K-8 School District. March interviews include Borough Engineer Andrew Hippolit who will discuss the PSE&G Gas line replacements on the east side of town and the 2020 Road Program; and Lt. Alisha Foley of the Montvale Police Dept. Do you have a story to tell? Please contact Borough Hall at 201-391-5700, or email me at rcurry@montvaleboro.org and we will get back to you!

The Borough Of Montvale Environmental Commission's Program Aimed At Bringing Awareness To The Environmental Impact Of Single Use Plastic Bags Results In The Collection Of Over One Ton (2,000 Pounds) Of Plastic Bags In Just Four (4) Months

Starting in September 2019 the Montvale Environmental Commission (EC) commenced a program in conjunction with the composite decking manufacturing company Trex to collect single use plastic bags and film. Once the plastic bags and film were collected, Trex utilized same as part of its composite decking manufacturing process. With the help of many volunteers, the Montvale EC has been receiving plastic bags from 5 designated locations around the Borough. In return for receiving 500 pounds of plastic bags within a 6 month period Trex agreed to provide Montvale with a new composite park bench.

As of January 13, 2020 the Borough of Montvale had collected and recycled an amazing over one ton or approximately 165,000 plastic bags. Bob Hanrahan, Chairman of the Montvale Environmental Commission stated that "The success of this program in just four months has surprised everyone. The residents are actively and eagerly participating in the program resulting in its amazing success." Chairman Hanrahan went on to point out that "While recycling and reusing the plastic bags is very important, just as important, if not more, are all the efforts to encourage residence to reduce and eventually eliminate their using single use plastic bags". He concluded that "This program was not only intended to recycle plastic bags, but it was also intended to bring awareness to our residents, and prepare them for state-wide plastics reduction programs that are currently being drafted in Trenton and will likely be instituted in the near future. I am very happy with the results of the program and by the overwhelming support from the residents of Montvale". Montvale plans to continue this program through 2020 or until a statewide program is instituted.

The Montvale EC continues to ask residents to use reusable shopping bags but if they do have more single use plastic bags to please continue to bring them to one of the following designated drop-off locations in the Borough:

- 1. Montvale Recycling Center on Memorial Drive
- 2. Montvale Community and Senior Center on Memorial Drive
- 3. Montvale Library at 12 Mercedes Drive
- 4. Montvale Memorial School *
- 5. Montvale Fieldstone School*
- 6. Pascack Hills High School*
 - *The Public School locations are for students only and not open to the general public.

The type of plastic they are accepting within this program is limited to plastic bags and wraps, NOT plastic bottles or any type of plastic that is at all rigid (crinkles) or does not stretch. The recycle number found on much of the material they accept is #2 and #4 and typical examples are shown on the diagram on the EC Website. **Please ensure the bags are dry, clean, and empty** so the volunteers in Montvale can handle them safely.

If you have any questions they can be addressed to the Montvale Environmental Commission through the montvale.org website using their "I Want To...ask a question" link found on the top right of the montvale.org main landing page.

For more information on the Montvale Environmental Commission and this program please go to http://www.montvale.org/boards/environmental

Board of Health

Infections with the Coronavirus are evolving situations and are likely to change. If you are traveling outside the US, visit the CDC Travelers' website for the latest travel health notices. Those who recently traveled out of the country and have a fever and cough or shortness of breath should seek medical care immediately.

As always with any contagious disease, stay at home and avoid contact with others. Refrain from public transportation until asymptomatic. Cover your mouth when coughing or sneezing, and wash hands often with soap and warm water for at least 20 seconds. If using a hand sanitizer, make sure it is alcohol based.

UNINTENTIONAL POISONING: National Poison Prevention Week March 15-21

Poison is any substance, including medication, that is harmful to the body if too much is consumed, inhaled, injected or absorbed through the skin. Any substance is potentially poisonous to the body if too much is taken. In some cases, poisonings are intentional and in some cases they are unintentional. Unintentional poisoning may include an overdose of medications and drugs or the consumption of household cleaners. In both cases, harm was not the intent, but poisoning was the result.

According to the (CDC) Centers for Disease Control and Prevention, 87 people die and nearly 2,300 are treated in emergency rooms on a daily basis from unintentional poisoning. Approximately 80% of emergency room admissions for those 18 years of age or younger result from an unsupervised child consuming medication. Although many children become unintentionally poisoned from household cleaning and personal care products, consumption of medication is still responsible for twice as many cases. In 2010, poison control centers across the United States received approximately 2.4 million calls for human poisoning cases.

Here are some safety measures that one can take in preventing unintentional poisoning:

- · When taking medications, be sure to follow your doctor's orders
- · Make sure all medications are stored away from a child's reach
- · Store medication in its original child-proof container
- · Keep cleaning products in areas away from food supplies, so not to be confused
- · Do not purchase over-the-counter medications that have tampered packaging
- · Be sure to child-proof or lock cabinets that contain medications and cleaning supplies
- · Educate your children when age appropriate
- · Always keep local poison control and emergency services numbers readily available

If you require further information on poisoning call 1-800-222-1222 (NJPIES) New Jersey Poison Information and Education System or check out their website at: http://www.njpies.org/.

You can also get more information from the CDC regarding the Prevention of Unintentional Poisoning at: http://www.cdc.gov/Features/poisonprevention.

Wednesday, April 22nd

Mental Health Resource Fair 6-7pm Keynote Speaker: Claudia Black, Ph.D. 7-9pm

EMOTIONAL BAGGAGE

Trauma begets trauma; addiction begets addiction; and each tends to beget the other. Both reverberate throughout a family system. Come and benefit from the years of experience of **Claudia Black**, **Ph.D.** as she will visually portray how we carry family of origin issues into our adult lives using the metaphor of the Baggage Cart, discuss trauma and addictions, and offer a 7-step path to a healing process.

Dr. Black's passion has been ageless and offers a foundation for those impacted by addiction, codependency, and mental health challenges.

This will be an impactful evening!

ABOUT THE SPEAKER:

Claudia Black, Ph.D. is a renowned addiction author, speaker, and trainer -internationally recognized for her pioneering and contemporary work with family systems, addictive disorders and treating complex addiction and mental health issues faced by youth and young adults. Dr. Black's expertise includes treating trauma and addictions. She empowers and strengthens families through treatment and her educational programs that address removing barriers to recovery in order to embrace multi-generational healing.

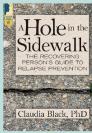

Dr. Black's books will be available at the event for purchase or order - CASH or CHECK only.

Memorial School Gymnasium Wednesdays 8:00-10:00 pm January 8 – May 20 (No Pickleball Feb. 5th and April 8th) Resident Fee: \$50 Non-Resident Fee: \$75

What is Pickleball? It's a paddle sport created for all ages and skill levels! The rules are simple and the game is easy for beginners to learn, but can develop into a quick, fast-paced, competitive game for experienced players. This sport combines many elements of tennis, badminton and ping-pong. Players are equipped with paddles and a plastic ball on a badminton sized court. The net that the ball is paddled over is a smaller version of a tennis net. Pickleball can be played in single or double teams. All the necessary playing equipment will be provided by the Recreation Department.
